

Wilderness First Aid Training Dates!

What is Wilderness First Aid (WFA)?

Wilderness First Aid covers assessment and treatment of injuries and illnesses where care or transport is over 30 minutes away. Topics include: Chest, Head, Spinal, Bone, and joint injuries, Altitude illnesses, Wounds/infection, Abdominal problems, and Allergies / anaphylaxis.

Who should take Wilderness First Aid (WFA)?

Wilderness First Aid is Recommended for back country trips including hiking. Wilderness First Aid Training is REQUIRED for TWO members per Trail Crew at Philmont and at least one for Sea Base and Northern Tier.

Are there Prerequisites?

CPR with AED must be current at the time of training (taken within two years). If you want to take the class but need CPR, there are a limited number of \$15 CPR spots available for those taking the WFA class.

When is this training being offered? And how much will it cost?

This 16 hour course will be \$25 and is taught over two days. **Both days are REQUIRED.** Minimum of 10 participants needed to hold the class.

Saturday and Sunday May 19th & 20th, 2018

I can't make those dates but want to take the class, what should I do?

Email Tracy at theredshoelady@gmail.com and get on the wait list. If you are particularly interested in a Friday/Saturday class (instead of Saturday/Sunday) please indicate that. Note: Friday/Saturday classes will require prepayment to secure your spot. Payment is NOT collected until we reach 10 attendees.

Where will the class be held?

Class location to be determined. If you have a free location available for those dates, please let me know.

Is the price of the class right?

Yes. This class is being taught by an instructor who is **volunteering** his time to Scout Leaders. You will need to download the material (you can print it or bring it on your electronic device) which keeps the cost low.

How do I sign up for a class or for notification on future classes? Who do I contact with Questions?

Contact Tracy Cunningham to reserve your spot or with questions. Please include whether you need CPR and a good contact number in case of last minute changes!
